AI Builders Mexico Day
Sponsor Prospectus
Ciudad de México – Octubre 2026

Nice to meet you!

We are AI Builders México, the team behind the leading Artificial Intelligence community in the country. Over the past year, we have coordinated and executed 20+ high-impact events.

Our events stand out for their exceptional quality and the high-caliber profile of our attendees. We have hosted official events for industry leaders like OpenAI, Cursor, Vercel, and Reve, drawing over 500 attendees per call to action.

Café Cursor

Brought together 100+ attendees with over 500 total registrations. Many of the participating builders are active members of our community who regularly share their technical hacks, tips, and key learnings across our official channels.

Build Day @ Stripe

80+ builders gathered in person at Stripe's office to collaborate and build together as a community.

Zero To Agent with Vercel

Hands-on workshop where a community member built a product during the event that went on to win Vercel's global hackathon.

What is AIBM Day about?

AIBM Day is set to be the premier Artificial Intelligence event in Mexico: a full day dedicated to community creation, hands-on learning, and technology adoption for 100 curated participants.

Build Zone: A real-time sandbox where attendees build live projects using credits provided at no cost by our sponsors, Cursor & OpenAI.

Demos: Dedicated booths for local developers and builders from our community to showcase their projects, launch MVPs, and receive direct feedback.

Talks: Keynotes and panels featuring international leaders and domain experts discussing AI adoption, infrastructure, and real-world impact.

We are Mexico's most active community of Artificial Intelligence builders and developers.

- 3,880+ registered members passionate about technology.
- 20+ hosted events (both virtual and in-person) with over 1,500 cumulative attendees.
- Hands-on workshops covering vibe-coding, AI agent creation, and corporate enablement for industry-leading organizations.
- Trusted partner to global tech leaders.
